

BATTERY CHARGER

The **MPL80** charger from Traction Charger has been designed with the latest JLR workshop standards in mind.

Suitable for most common battery types – Ca/Ca, Ca/Ag, AGM, GEL and conventional lead acid.

The **MPL80** features Traction's patented de-sulphation technology ensuring the battery is in peak condition before commencing charge.

As with all Traction Battery Chargers the **MPL80** is manufactured at our own UK site.

The rectified DC output of the **MPL80** achieves significantly higher standard of charge than its switched mode competitors.

All **MPL80** chargers come with the Traction Charger 5 year RTB warranty package.

FEATURES

- Patented Sulphation Recovery Program
- Short circuit shutdown without blown fuse
- Reverse polarity protection
- Soft start current control
- Fast constant current bulk charge
- 3-stage charging: CI-CV-Float
- Constant voltage float/standby
- Proportional timing – minimal gas emission
- Independent overrun timer
- Accurate zero-crossing voltage sensing
- Flexibility – to match battery specification
- MPL80 available in the UK, Euro and 110v Version
- Manufactured in the UK

MPL80
12V 80A

SPECIFICATIONS

INPUT

220-250VAC

WEIGHT

30KG

SIZE

380 x 260 x 255MM

MANUFACTURING ORIGIN

UK
